

JDRF LACROSSE TOURNAMENT CELEBRATES 2008 EVENT AND LOOKS FORWARD TO NEXT YEAR AND FINDING A CURE

4th Annual Lacrosse Tournament to the benefit the Juvenile Diabetes Research Foundation and the Leukemia & Lymphoma Society

From its inception in 2005 by Massapequa Lacrosse Club (MLC) and numerous volunteers we have raised over \$153,000 to benefit juvenile diabetes research. MLC and the Town of Oyster Bay have partnered together to have one of the most successful tournaments on Long Island.

For the last 3 years teams ranging in ages from K-12 as well as post-collegiate teams have come together for this event. Oyster Bay Town Supervisor, John Venditto has been a major supporter of this community based event. In a lacrosse filled weekend at John Burns Park and the Field of Dreams in Massapequa, NY, over 160 teams from all over the Tri-State area came together to play lacrosse.

In 2009 Massapequa Lacrosse Club will host the 4th annual Supervisor's Cup to benefit JDRF and the Leukemia and Lymphoma Society which is schedule for June 5,6,7 and is shaping up to be the most successful to date with over 60 teams already committed to the event. National retailer Lacrosse Unlimited has signed on as a major supporter of this event as well as the Leukemia and Lymphoma Society.

For the 4th Annual Event Massapequa Lacrosse Club and JDRF have teamed up with the Leukemia and Lymphoma Society to add an additional emphasis on the charity and goodwill of the lacrosse community. Through its 68 chapters nationwide and in Canada, LLS offers a wide variety of educational and patient services. They include First Connection, which links newly diagnosed patients to a peer volunteer who has experienced a similar diagnosis; Meet the Expert on Non-Hodgkin Lymphoma and Meet the Doctor programs; teleconferences and Webcasts; support groups; information on the latest clinical trials and treatments; patient financial aid; workshops that address survivorship issues; and an award-winning Web site (www.LLS.org/li).

With its popular Information Resource Center, LLS connects patients, families and caregivers to oncology nurses and social workers. In 2007, The Leukemia & Lymphoma Society made 5.1 million contacts with patients, caregivers and healthcare professionals, helping people find lifesaving and supportive information through every phase of their illness.

Any team or coach interested in being a part of this special tournament and helping to find a cure for diabetes is encouraged to contact John Lynott by phone at 516 732 0738
